Education

GIET University Gunupur, Odisha
Bachelor of Technology in Computer Science & Engineering *2022 – 2026*

Projects

AyurDiet – AI-Driven Ayurvedic Diet Management SaaS | Live | Backend | Frontend
Spring Boot, Spring WebFlux, JWT, RBAC, React, PostgreSQL, ML

- Architected a **multi-role SaaS platform** (Admin → Doctor → Patient) with **JWT + RBAC** authentication, automating AI-driven diet planning and **reducing manual diet management time by 95%.**
- Deployed **ML inference as an independent service**, to achieve a **fault-isolated** architecture; **core platform remains available** even if ML service goes down.
- Designed ML-service communication using **Spring WebFlux**, enabling future migration to a fully reactive architecture.
- Designed a deployment architecture capable of supporting ∼**250 concurrent users** while maintaining **$0 infrastructure cost** during initial deployment.

Legalyser – LLM-Powered Legal Document Analysis Platform | GitHub
Spring Boot, Gemini LLM, RAG, Redis, PostgreSQL

- Built an **AI-powered legal document analysis Automation** platform with **document-specific Q&A**, reducing manual review effort.
- Built a **RAG pipeline** using chunking, embeddings and vector search to **reduce LLM hallucinations.**
- Implemented **Redis-based caching and rate limiting** for **abuse protection** and **LLM cost control.**
- Designed a **stateless, secure API layer** with JWT authentication, ensuring each document and Q&A session is **user-scoped and access-controlled.**

Clixora – URL Shortener Platform | Live | GitHub
Spring Boot, React, MySQL, Redis, JWT

- Built a **URL shortening platform** supporting custom and random aliases with **JWT-secured APIs** and an analytics-ready backend.
- Reduced redirect latency from ∼**900ms** → **12ms (**∼**98% reduction)** via Redis caching.
- Implemented **Fixed-Window rate limiting** using Redis atomic counters.
- Deployed frontend and backend on **separate PaaS platforms** to achieve a **fault-isolated architecture.**

Technical Skills

Languages: Java, JavaScript, SQL
Frameworks & Libraries: Spring Boot, Spring Security, Spring Data JPA, Spring WebFlux, REST APIs, React
Databases & Caching: PostgreSQL, MySQL, Redis
Cloud & Deployment: AWS, Render, Neon, Docker
AI / LLM: Gemini LLM, Prompt Engineering, RAG Pipeline
Core Concepts: Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, System Design

Achievements

Hackathon Winner – GIET University (2025): Led a 6-member team to build and ship a production-ready AI solution

LeetCode: Solved 130+ problems

Certifications

Certified in Backend Development – Spring Framework 6 & Spring Boot 3

Certified in Java Full Stack Development – Wipro TalentNext Program
